## ATT FÖRA VÄRLDENS TALAN

od 1507E6080BBC-BO1-14/0001

Hammarskjöld, generalsekreterare i Förenta Nationerna 1953-1961, var en praktisk visionär. Steg för steg flyttade han FN:s och sin position i världspolitiken. Samtidigt definierade han FN:s ideal och gav världsorganisationen en etisk dimension. Kaj Falkman, ömat och författare, har gjort ett urval av Hammarskjölds tal i tal eller inför medarbetare eller medier.
