THE VENUS CONSPIRACY

Code 1507E6093315-BO1-3/000

How can a drug that makes people fall in love be used to control the world? So thinks Professor Bacci when he inadvertently discovers the biochemical key to falling in love, and decides to use it to create emotions indistinguishable from true love. But what if that the world should benefit from his discovery? He seeks the help and business advice from a private Swiss bank, owned by the secretive Kappel family. Unknown to Bacci, however, Helmut Kappel sees love as a sickness to be exploited, and has his own plan for abusing the drug's power - a cynical nightmare of breathtaking arrogance far removed from Bacci's naive dream of spreading love around the world. Ripped from tomorrow's headlines, "The Venus Conspiracy" is Michael Cordy's latest glimpse of a compelling future where even human emotions can be bought and where true love can be faked...
